Balance	X	X		
Easy Entry / Exit	X	X		
Handicapped Accessible	X			

**XFowler** is a company built of duck hunters, for duck hunters. We have developed and are manufacturing a floating movable platform, solid as concrete, buoyant as a boat, stable as bare land, and camouflaged in living tules and grasses. This isn't the old tank blind.

With **XFowler** Duck Blinds you will shoot more ducks. Concealment, hearing, great visibility, balance, comfort, easy entrance / exit, a concealed place for your dog, and the ability to easily move your duck blind in any direction at any time all add up to our ultimate goal: helping our fellow hunters to successfully shoot more ducks.

It is our mission to increase the overall hunting success of our customers and change the way the world hunts ducks. Our mission is inclusive to all men, women, mobility challenged, and handicapped hunters alike.
